-

PROFESSIONAL EXPERIENCE

Autnhive Corp.

<https://autnhive.com>

Junior Software Developer

May 2022 to Present

- Collaborate with a team of developers to design and develop software applications using Java, ReactJS, HTML and JavaScript.
- Participate in code reviews and provide constructive feedback to improve code quality.
- Work closely with cross-functional teams, including designers, product managers and quality assurance to ensure effective communication and successful project delivery.
- Exchange and integrate solutions with other teams tasked with different responsibilities for the same product to ensure smooth transitions into next phases of the product.
- Document software features, functionality, and technical specifications for future reference.
- Actively participate in team meetings and discussions, contributing ideas and insights as well as demonstrating current solutions created.
- Demonstrate a strong willingness to learn and grow, taking on new challenges and responsibilities.

Software Developer (Intern)

May 2021 to August 2021

- Received various tasks such as making data wraps for the company-built Intact library, scripts for database manipulation in PostgreSQL, and file management to be used in other products
- Worked on both back-end and front-end of products such as interface design, database manipulation, etc.
- Utilized Java to write bridges between system files and data wraps in different programming language files
- Attended daily meetings and participated in determining the company goals and how they can be achieved
- Researched and learned new topics to achieve tasks efficiently
- Met strict deadlines and collaborated with other teams from other geographical locations
- Refined certain tasks and presented demos of the solution to certain tasks and how to use

Bagel World

May 2014 to May 2022

Family-owned business, 16995 Yonge St, Newmarket, ON L3Y 5Y1
